National Conference

on

Advances in Food Processing for Sustainable Food Security (AFP-2019)

May 17-18, 2019

Organized by

Department of Food Process Engineering
National Institute of Technology Rourkela

Venue

Department of Food Process Engineering
National Institute of Technology Rourkela
Odisha, India

ABOUT THE INSTITUTE

NIT Rourkela is one of the premier national level institutions for technical education in the country and is funded by the Government of India. Government of India has elevated the Regional Engineering College, Rourkela to a deemed university under the name of National Institute of Technology, Rourkela. The main objective of the Institute is to produce quality Engineers and Scientists in Graduate and Post-Graduate levels in various branches of Engineering and Science. NIRF ranking 2018 has figured NIT Rourkela at 15th position in engineering category and 42nd position in overall against last year's overall position at 46th. Times Higher Education has figured the institute in the group of 601-800 in World University Ranking 2019 (Overall). The institute has been ranked in 121 positions in QS BRICS category, 27th position in QS Indian University Ranking 2019 and 215 in QS Asia University Ranking, 2019.

ABOUT THE DEPARTMENT

The Food process engineering department at National Institute of Technology Rourkela blends engineering disciplines with a strong understanding of food and food science. The vision of the department is to become an internationally acclaimed department of higher learning in the field of Food Process Engineering that will serve as a source of knowledge and expertise for the food processing industries and be a preferred destination for undergraduate and graduate studies. The mission is to advance and spread knowledge in the area of food process engineering leading to improved and sustainable practices in food production, processing, preservation, and safety, thereby ensuring food security in the society.

ABOUT THE CONFERENCE

India is a country of rich cultural knowledge and heritage has diverse regions with different food habits. Indian food sector alone caters 1.3 billion consumers and generate a total export turnover of US \$39.71 billion in FY 2016. It is also that estimated global food demand is to grow by 40 % by 2030, with the potential for food industry to grow while so many other sectors are in decline is another plank that supports that food is our future theory. India attained self-sufficiency in food, benefits from marginal surplus in production and is among the leading global producers of fruits and vegetables, milk, and cereals, though only less than 10% is processed due to lack of technologies, infrastructure and processing facilities leading to wastage of Rs 92000 crores (US\$1.5 billion). With the full extent understanding of supply chain from farm to fork and value addition of the same in India, can position the nation to take advantage of this growth. We believe that this conference can become a platform in finding new and more sustainable ways of addressing food global issue to meet the need of growing population and challenging lifestyle.

OBJECTIVES

- ✓ To discuss advances in post-harvest and food processing.
- ✓ To discuss the concerns in sustainable agriculture and food processing.
- ✓ To discuss the strategies and solutions for food and nutritional security.
- ✓ To confer the interdisciplinary approach of bio Sciences and Engineering in food technology.

THEME

The conference invites food scientists, food technologists, dietitians, agricultural scientists, food and nutraceutical industry personnel to present their novel concepts and advanced approaches on following thematic areas :

- Food processing technology
- Post-harvest technology
- Waste management : effluent treatment, biofuel & composting
- Novel food processing technology
- Food quality and assurance
- Interdisciplinary approach: food science and technology
- Food engineering
- Food and nutritional security
- Innovations in food packaging
- New product development

CALL FOR ABSTRACTS

Researchers, scientists, policy makers, academicians, and students are invited to submit an abstract on any of the conference themes or related areas. Abstract for oral and poster presentation not exceeding 250 words typed in English in a single paragraph in Times New Roman, font size 12 points, 1.5 line spacing are invited.
