

Dear Alumnus/Alumna,

Warm greetings!

Hope, you are aware that the Diamond Jubilee year of our Alma Mater has passed while humanity at large was being swept by the devastating pandemic. We at NITR are no exception. We lost a bright young Professor, Head of Metallurgical and Materials Engg. Dept. and a few other colleagues. In such a frightful situation, all celebrations world-wide had come to a halt.

In the life of an Institute, Diamond Jubilee is a historic milestone bearing huge significance. Now that the dark cloud has cleared, we have planned a year-long celebration with numerous events, concluding on the 15th August, 2023.

GLOBAL ALUMNI MEET, the most important among the series of events is scheduled from the 28th to 30th December, 2022. The event will be inaugurated on the evening of the 28th and valediction will be held in the forenoon of the 30th; curtain will be drawn after lunch. Alumni Association with appropriate financial support from Alma Mater had organised the golden jubilee of NITR in 2010 which was attended by about 1250 alumni/alumnae, total about 1500 including family members. This time the Institute, the Alma Mater is organising the Home Coming, beckoning her children with her extended loving hands. Obviously we expect a much larger participation.

Many of you may not be aware that unlike any Institution of higher education of repute, we at NITR do not have an Alumni–donated Corpus Fund. We are trying to create a Corpus with donations from Alumni on the auspices of Diamond Jubilee.

This letter is an introductory communication requesting you to mark the dates in your engagement calendar. I reiterate that we (your Alma Mater) eagerly awaits for the D-day the 28th December, 2022 to welcome our Alumni/Alumnae for the Diamond Jubilee celebration spanning 3 days, concluding on 30th December.

I request you to please acknowledge the receipt of this communication and provide your personal information in the prescribed format at the following google form link for updating our Database and facilitating further communications.

Google form link : <https://bit.ly/3zPCVa2>

Note : Your personal information will be kept with the Institute in a file and not for the public display.

All batches have their network of classmates maintained and operated by an Admin/Coordinator. For facilitating further communication relating to the Homecoming event, you may please indicate contact details of Coordinators/Admins of your batch.

As mentioned above this is the last opportunity to create an Alumni–Corpus Fund. We would like to have the details of entrepreneurs in your batch, whom we would contact for some help.

After receipt of your acknowledgements we shall complete the planning activity and initiate registration process in about two months.

With regards and all the best wishes

Yours sincerely

Prof. Kishanjit Kumar Khatua
Dean(Centre for Alumni, Industry and International Relations)
Professor, Dept. Of Civil Engineering
