
Departmental Seminar

Seminar Title	: Postmortem Analysis Instrumentation v/s Predictive Analysis Instrumentation
Speaker	: Dr. Mani Ram Saharan
Supervisor	: Prof. S Ram
Venue	: Seminar Room, Department of Mining Engineering
Date and Time	: 08 May 2025 (4:30PM)
Abstract	: The majority of instrumentation available in mining engineering is for postmortem analysis. The instrumentation program waits to happen untoward incidence. We have developed predictive instrumentation aimed for Workplace Safe, Workers Safe premise. The presentation will demonstrate the difference between two approaches.
