About Host:

National Institute of Technology Rourkela was established in 1961 to cater various engineering applications at national and international levels. NIT Rourkela provides quality education in a diverse and multi-cultural environments. The mission of the institute is to become an internationally acclaimed institution of higher learning that will serve as a source knowledge and expertise for the society and be a preferred destination for undergraduate, graduate studies and cutting edge researches.

Call for Papers:

This conference confines with several tropical tracks, which are well balanced in content and created an adequate discussion space for recent inventions. RIDMSEF hosts following research tracks.

Tracks:

Track 1: Advancements in Microscopy

Track 2: Findings Using Various Diffractometers

Track 3: Innovations in Characterization Techniques

Track 4: Metallurgical and Materials Engineering: Latest Insights

Track 5: Role of Artificial Intelligence on Innovation in Material Engineering

Track 6: Interdisciplinary Research on Material Science

Proceedings Publication:

Selected papers will be published in Scopus indexed Publishing House. (To be updated soon in the conference website).
