Organized by

Department of Food Process Engineering
National Institute of Technology Rourkela

ABOUT THE INSTITUTE

NIT Rourkela is an institution of national importance funded by Ministry of Human Resource Development. NIT Rourkela was established as Regional Engineering College (REC) on August 15, 1961. It is one of the premier national level institutions for technical education in the country. The main objective of the institute is to produce quality engineers and scientists in graduate, post-graduate and doctoral levels in various branches of Engineering and Science. NIT Rourkela was ranked 601-800 in the world by the Times Higher Education World University Rankings of 2018 and 126th in Asia. In India, it is ranked 15th among engineering colleges by the National Institutional Ranking Framework (NIRF) in 2022.

ABOUT THE CONFERENCE

The 11th Asia Pacific Drying Conference (ADC) will be held in Kolkata, India during February 18-19, 2023. The ADC series of biennial conferences was established in 1997 by Prof. A. Kamaruddin of Bogor University, Indonesia and Prof. Arun S. Mujumdar of McGill University, Canada. It is modelled after the widely acclaimed biennial International Drying Symposium Series (IDS) which was initiated in 1978. The conference venue has since moved to several countries including China (2 times), Malaysia (2 times), India (2 times), Thailand, Hong Kong etc.

The 11th ADC in 2023 plans to bring together more than 300 stakeholders, from research organizations, academic institutions, non-governmental organizations, industries and professional associations, in a single platform for exchange and dissemination of ideas and recent research findings on fundamentals and applications of drying. The conference is being organized by National Institute of Technology Rourkela, India with major support from diverse industries in India.

COMMITMENTS

To highlight key issues related to existing approaches of traditional and innovative drying technologies for maximum benefits to drying equipment manufacturers, processing industries, drying researchers and end user.

Possible improved solutions to ensure sustainable drying technologies.

Ensuring fast growth in the development of drying industry.

To become a catalyst for change in drying industries as well as drying practitioners across a globe.

Providing a good platform for all drying professionals to exchange and disseminate ideas and recent findings, to share practical issues and best practices.

TOPICS

- ✓ Fundamentals, modeling and simulation
- ✓ Physical properties and product quality
- ✓ Industrial processes and equipment
- ✓ Measurement and process control
- ✓ Process intensification
- ✓ Drying of gases and liquids
- ✓ Drying of powdered solids
- ✓ Drying of biomass for energy applications
- ✓ Energy and environmental issues
- ✓ Drying of food and agricultural materials
- ✓ Drying of biological and pharmaceuticals materials
- ✓ Drying of chemicals and polymers
- ✓ Drying of wood, pulp and paper, and forest products
- ✓ Integration of drying with other unit operations
- ✓ Osmotic dehydration and dewatering
- ✓ Novel drying technologies, R&D opportunities

CALL FOR PAPERS

We are inviting authors to prepare original articles, state of the art reviews, or case studies for the 11th Asia Pacific Drying Conference. Supporting journal for special issue Drying Technology

Please download the manuscript template and email your file to info@adc-india.com with cc to arun16foodeng@gmail.com before the deadline. Please do not convert the file in PDF. For more details, please visit the conference website: www.adc-india.com

After the conference, individual scientific team of the 11th ADC will select high quality articles of archival and recommend for the possible submission to "Drying Technology" journal for publication in a special issue upon successful peer review.
